Out of the house, beyond the stones of eternal pain
Across the orgasmic veins of the city - circle of death
Unchained as we are, wolves of humanity's ancestral
fears
The walls, the humans (useless), they stand in my eyes
(open)
The taste of blood, the sign of war
Never look behind, my body is so tired

I wanna die
Why is she crying ?
Shut up bitch !
A kind of me...
Never I'll betray

Run my love
Save yourself from this chaos
The flames, the crowd, the new gods
They're marching our plains
Dispensing aesthetic death
Oh, my breath !
Infernal sickness

Nothingness - I am alone
The walls, the bricks, a girl, oh God !
Never stop - the walls - destroy
Fucking little bitch die, and die !

Friends of misfortune mustn't leave me here
Run my love...
Save yourself from this chaos
The flames, the crowd and the new gods

Je jouis, je saigne, je meurs, je vis
Je pleure, j'ai envie de vomir
Va t'en
Pourquoi es-tu venu ?
Laisse moi hurler
Demain peut-etre, qui sait ?
Tu ne sais rien et moi tout
I know all

Je n'en peux plus, j'en ai assez
Je me suis brulé les yeux et j'ai peur

A line of cars (red and white) and this piece of steel
which hurts me in
my stomach...
