Candlemass cover-version - bonus track  
Lyrics by Leif Edling

I'm sitting here alone in darkness  
Waiting to be free,  
Lonely and forlorn I'm crying  
I long for my time to come  
Death means just life  
Please let me die in solitude

Hate is my only friend  
Pain is my father  
Torment is delight to me  
Death is my sanctuary

I seek it with pleasure  
Please let me die in solitude

Receive my sacrifice  
My lifeblood is exhausted  
No-one gave love and understanding  
Hear these words  
Vitrifiers and pretenders  
Please let me die in solitude

Earth to earth  
Ashes to ashes  
And dust to dust

And please let me die in solitude
