Put down your things and rest a while  
You know we've both nowhere to go  
Yeah, Daddy had the crash  
He's always halfway there you know  
And no, I don't pretend there's anymore of that  
They say one day you'll look up and laugh

And hear the same sad echo  
When you walk  
Yeah, the same sad echo  
When you talk loud and clear  
It's the same as the same  
Sad echo around here

I promise you this winter  
I will worship you like God  
And ride your train forever  
Electric fortunes to be told  
And I don't want to question or even celebrate  
All the joy you took and then gave back too late

It's the same sad echo when you lie  
It's the same sad echo when you try to be clear  
It's the same as the same sad echo around here

Well, I woke up right here in a pool of sweat  
And with a box of pills and you  
Yeah and I'm gonna keep my head  
I'm gonna keep my cool, oh I'm so in love with you  
Yes and in another world nothing was like this  
There may have been a girl that never was a kiss

The poison came in liquid  
She was naked all the time  
And no one could explain it  
It was all between the lines  
And I don't seem to trust anyone no more  
It could be faith I'm just not sure

It's the same sad echo every day  
Yeah the same sad echo another way, when you call  
It's the same as the same sad echo most of all

Oh well you just got tired you just gave in  
You took it hard then you just quit  
You let me down, you dropped the ball  
You fell on your face most of all  
And I don't want to mean anything to you  
And I don't want to tempt you to be true

It's the same sad echo comin' down  
It's the same sad echo all around in my ears  
It's the same as the same sad echo around here
