Take a look at what I got  
I can't promise you a lot  
But you and me  
And the road ahead

I can't save you from yourself  
You gotta want it  
All that's left is you and me  
And the road ahead

Wherever that wind might blow  
Wherever that river rolls  
You know I will go with you

Lookin' over the mountain's crown  
The water roars and tumbles down  
Like you and me  
And the road ahead

Wherever that wind might blow  
Wherever that river rolls  
You know I will go with you, ooh, oh

Just you and me  
And the road ahead  
Just you and me  
And the road ahead
