"I Wish I Had A Million Friends"

Visit "[I Wish I Had A Million Friends](#)" on MotoLyrics.com

I wish I had a million friends and the playground as big
as the world

I wish I had a million friends, some kittens, some boys
and some girls

I wish I had a million friends, some people, some
puppies and cats

Some chickens, some mouse and the bird

And maybe I'd like to have a big friendly rat, yeah

I wish I had a million friends and the sandbox as big as
the school

I wish I had a million friends and the frog that goes
ribbit in the pool

I wish I had a million friends, I'd like to have all
different sorts

One for the morning and the noon and the night

A monkey and a zebra and a big white horse, oh boy

I wish I had a million friends who would listen and talk
to me too

I wish I had a million friends, the whole wide world and
the whole big Zoo

I wish I had a million friends who were thoughtful, kind
and true

I wish I had a million friends and I wish they were all
like you
