She's got to be the loneliest girl in the crowd
How can she look so sad when the music is playing so
loud
Maybe she's waitin' on someone who'll make her feel
proud
She's got to be the loneliest girl in the crowd

I took a chance and I asked her to dance but she put
me down
While I was a lookin' for a big ole smile I found a big ole
frown
So loving looking so calm and she's so well endowed
She's got to be the loneliest girl in the crowd

Somebody hurt her, I don't understand it's so wrong
Why is she here, she's mixing her tears with my happy
song
She looks like an angel who just came down out of the
clouds
But she's got to be the loneliest girl in the crowd

I took a chance and I asked her to dance but she put
me down
While I was a lookin' for a big ole smile I found a big ole
frown
So loving looking so calm and she's so well endowed
She's got to be the loneliest girl in the crowd

She's got to be the loneliest girl in the crowd
