(Tom T. Hall)

I heard a song in a seashell down by the ocean one day
Beautiful song in a seashell played by the wind in the
waves
It's a song about happiness it's a song about the sky
above
It's a song about the ocean blue, it's a song about love.

I took the song in the seashell back to the mountains
with me
Now I hear the song in a seashell any old time that I
please
It's a song about happiness it's a song about love trust
It's a song about you and me, it's a song about us.

--- Instrumental ---

Now I have a song in a seashell to follow me all of my
days
Beautiful song in a seashell played by the wind in the
waves
It's a song about having fun it's a song about being
true
It's a song about an old true love, it's a song about me
and you.

It's a song about having fun it's a song about being
true
It's a song about an old true love, it's a song about me
and you...
