(Tom T. Hall)

Laugh your little head off cry your little eyes out
Dance a hole in the floor
That's what music's all about that's what songs are for
Tell someone you love them tell someone you miss
them
It's all been said before
That's what music's all about that 's what songs are for.

Sing in the sunshine sing in the rain
Forget your troubles be happy again
Laugh your little head off cry your little eyes out
Dance a hole in the floor
That's what music's all about that's what songs are for.

--- Instrumental ---

Bring back mem'ries good time mem'ries
Go out and make some more
That's what music's all about that's what songs are for
If you say you're sorry if you say you're lonely
Songs can say that and more
That's what music's all about that's what songs are
for...
