Oh the years go tumbleing down
As if each one were a town
I've been debted to my friends
For hanging out and hanging in
The debt is heavy on my mind
Friends have been good and friends have been kind
I lapped up my youth like hunny
Just like wasted borowed money

Chorus:

Just like wasted borowed money
Breathing air of anoher day
Spending next weeks pretty sunshine
On a dream thats gone away
Would you settle for me being
What I am and where we are
Just like wasted borowed money
Some of these memories are scars

My emotions are all bankrupt
Like a poor boys country store
Left out that part about me dying
Oh I've done it all before
Maybe I can make it up some
Oh it's sad but it seems to me
Just like wasted borrowed money
Lifes been catching up to me

Chorus
