I took your picture from the table and now I'm finally
alone
Took your number from my Rolodex I might get weak
and call your phone
I got my chainsaw from your brother I did all of this and
then
There ain't nothing new about me I'm just the way I've
always been
Stopped at Harry's for a cold beer and Danny won the
football pool

John Garcetti's back to drinking they caught his kids
with drugs at school
And everybody has their problems now you're gone
and mine begin
There ain't nothing new about me I'm just the way I've
always been
I'm just the way I've always been I love you now I loved
you then
Same old faults and same old friends I'm just the way
I've always been

Your uncle called about my pickup he'd like to use it for
a day
I told him come ahead and get it cause I don't need it
anyway
He doesn't know that you don't live here I guess I'll
have to tell our friends
'Cause there ain't nothing new about me I'm just the
way I've always been
I'm just the way I've always been I love you now I loved
you then
Same old faults and same old friends I'm just the way
I've always been
