(Tom T. Hall)

We're all through dancing, they've turned on the lights
We're all through dancing, goodnight.

You take my boutineer, dried flowers souvenir
Carry your dancing shoes and a wine glass too.

I never thought that we would cry at melodies
Either that punch was strong or some old song.

We're all through dancing, they've turned on the lights
We're all through dancing, goodnight.

--- Instrumental ---

We're all through dancing, this dusty floor
We're all through dancing, no more...
