What am I gonna do with my music that nobody wants
to hear
What am I gonna do with my love songs they make me
break out in tears
What am I gonna do with my stories that paint life so
sad and grief
What am I gonna do with my music that nobody wants
to hear?

I've got some friends who would listen but it costs too
much to get 'em drunk
And when they're sober all they're remember is oh boy
that music's stunt
So what am I gonna do with my waltzes when nobody
wants to dance
And what am I gonna do with my music if nobody gives
me a chance?

--- Instrumental ---

What am I gonna do with my marches I guess I'll just
wait for a war
What am I gonna do with my sad recitations I can't get
them into the store
They say you have to be different I wish I could whistle
through my ears
Oh, what am I gonna do with my music that nobody
wants to hear.

That nobody wants to hear...
