Your birthday is special to me
I'm glad it's your birthday today
It's been a good year now, your birthday is here
And here's what I wanted to say

I know your birthday is special to you
I want you to know that I'm lovin' it too
You're bigger and better, and taller, and smart
And it makes me feel good in my heart

Your birthday makes everyone glad
How many birthdays have you had
Well, you ought to say wow, 'cause you're having one
now
And you should thank your mom and your dad

Have you ever noticed how quickly you grow?
You once were a small tender baby you know
You're clever and good and you're growing each week
Someday you'll be as big as you please

Your birthday is special to me
I'm glad it's your birthday today
It's been a good year now, your birthday is here
And here's what I wanted to say
