I fought the beast and I broke his jaw
I cut out his heart and I ate it raw
I seen some people in misery
Makes all my questions seem like luxury

That's why I go to the outzone
There I can ride on a love wave
I climbed a mountain to the top
It was just a very big rock
After the up I have always found
You can count on coming down

That's why I go to the outzone
There I can ride on a love wave
I played guitar with a media star
The entire event took place in a bar
Where'd the kid go? is he in a funk?
It's not your fault they filled your head with junk ...
That's why I go to the outzone
There I can ride on a love wave
I heard some church bells toll through the woods
I thought they'd done sellin' them goods
Me, my sins are at the laundromat
And when I'm clean I'm goin' back ...

That's why I go to the outzone
There I can ride on a love wave

That's why I go to the outzone
There I can ride on a love wave

That's why I go to the outzone
There I can ride on a love wave
