They've got numbers; we've got martyrs  
And we're out here 'til the end  
I could never call it now  
I could never quite give in  
So we'll stand up; we can't watch as  
They tramp all over our rights  
So we're still holding on through the night

In our country (hey) it's our battle (hey)  
So we raise our guns and we all yell (hey)  
For our country, we'll never lose a fight  
'Cause our freedom's (hey) all we have left (hey)  
So we claim our land 'til our last breath (hey)  
For our freedom, we'll never lose a fight

We're off and it's on  
We'll never sing along  
To another anthem in the morn'  
We'll battle here tonight  
And even if we die  
You'll still hear our song in the morning
