We're dancing with the living dead  
But ain't dying far as I can tell  
Well if I don't take my time  
You might hear the line you've been craving all night  
I never lived through a longer hour  
And never realized it was in your power  
To take me on this ride for one more night

Baby there's a way and I'm gonna find it  
Well I'll never turn my back so I don't believe it  
So don't you tell me, I can find my own repressions  
Repressed and shunned

Don't, don't you believe what you see  
Don't you take in what you believe  
Well if I had one more day  
You better believe I'd have my way  
I'll have my day
