"Why Can't They Bleed Like Us"

I want to see them here
To face the pain of war
A war that they declared
A man against the world
A world they'll never know
They've always turned their backs
Against another man
A man who bleeds like them
But they don't bleed like us

Why can't they feel afraid
I can't wait for the day
When they will bleed like us
How can they turn away
While the world is slain
The other side
Why can't they bleed like us

Time has shown they'll fall
As every power before
What good is your reign
At the bottom of a grave
They claim valor but this
Is just an iron fist
To keep a man at bay
Another man who bleeds
But they don't bleed like us
