"In Between Love"

In between love trying to scheme love
Who can tell what we may find
Never thought love, not get caught love
Between the magic in your eyes

Loves like women, it's cool and breezy
Never thought that love could be so easy

In between love trying to scheme love
In between love again

In between love trying to scheme love
Who can tell what we may find
All this time love, I sublime love
To the feelings in my mind

Loves like women, it's cool and breezy
Never thought that love could be so easy

In between love trying to scheme love
In between love, again
