(Teddy Edwards)

Sure as fire will burn
There's one thing you will learn
Those things you have cherished
Are things that you have earned
Luck is when opportunity
Meets with preparation
And the same is true for every generation

Little man
As you climb upon my knee
The whole future lies in thee
Little man

Little man
Never hurry, take it slow
Things worth while need time to grow
Little man

Don't look back
There are things that might distract
Move ahead towards your goal
And the answers will unfold
Little man
Love is always in the air
It is there for those who care
Little man

Don't look back
There are things that might distract
Move ahead towards your goal
And the answers will unfold
Little man
Love is always in the air
It is there for those who care
Little man
Little man
Little man
Little man
