Rusted brandy in a diamond glass
everything is made from dreams
time is made from honey slow and sweet
only fools know what it means
temptation, temptation, temptation
I can't resist

I know that she is made of smoke
but I've lost my way
she knows that I am broke
but I must play
temptation, temptation, temptation
I can't resist

(Break)

Temptation, temptation, temptation
I can't resist

Dutch pink and Italian blue
she is waiting there for you
my will has disappeared
now my confusions oh so clear
temptation, temptation, temptation
I can't resist

Rusted brandy in a diamond glass
everything is made from dreams
time is made from honey slow and sweet
only fools know what it means
temptation, temptation, temptation
I can't resist
