Wooooooh yeah  
See the little things you do  
Makes me wanna love you  
Wooooohhaa

When you smile  
Is like a melody to song  
When you smile  
Baby nothing can go wrong  
When you smile  
Girl you take my breath away  
Hey, hey, yeah  
My love is here to stay

Baby,  
Tell me  
Where have you been  
It's been a while now since I've  
Found this joy within  
All I do is smile when you're around  
I'm so glad to find someone to ease my pain  
With just a little smile

Cause when you smile  
Is like a melody to song  
When you smile  
Baby nothing can go wrong  
When you smile  
Girl you take my breath away  
Hey, hey, yeah  
My love is here to stay

I can see the day  
When we're together  
Through thick and thin  
Through stormy weather  
I'm in love with a future  
I wanna be the friend that keeps you warm  
Whenever you call

When you smile

Is like a melody to song  
When you smile  
Baby nothing can go wrong  
When you smile  
Girl you take my breath away  
Hey, hey  
My love is here to stay

Life was no minute  
Take you in my arms  
Girl I be deserve you  
Baby you're the one

When you smile  
Is like a melody to song  
When you smile  
Baby nothing can go wrong  
When you smile  
Girl you take my breath away  
Hey, hey  
My love is here to stay

Is here to stay (woooooaah)  
Is here to stay (woooooaah)  
Girl... wooooaah  
Wooooooooooooaah  
Staaay...
