your eyes by Karmadelaluna  
You can look deep down inside of me  
Feel the things I want to be  
There's a magic light in your eyes

I can feel your heartbeat next to mine  
Touch your soul and make it mine  
There's a magic light in your eyes

I wanne feel  
I wanna fly away  
I wanna see the world through your eyes

There's a magic light in your eyes  
There's a magic light in your eyes  
There's a magic light , a magic light  
There's a magic light in your eyes
