### "Cul De Sac"

The world is growin' old  
And preparin' for sleep  
But you and me are just not gettin' outta bed  
Wakin' up

Sunbathing on the shores of a nightmare  
I wish you were here

'Cause they say  
We say  
And we say

Eternity is all used up  
And our hell has frozen over  
But it ain't that cold  
It's warm enough

Sunbathing on the shores of a nightmare  
I wish you were here

'Cause they say  
We say  
And we say

That we're saved  
We're saved  
That we're saved
