From the Big Bang to DNA
You've got to play
by the rules of the game
Obeying the Laws of Physics
If you want to be a Player
You have to get hip to Science!

And if you want to say something
about Science you have to speak
the language of Science. Do you think
that language is English? or French or German
or Japanese or Chinese or Swahili?
Think Again!

Math is the Language of Science!

An equation is a sentence of cause and effect.
A logical recipe that helps us predict the future.
Math is the Language of Science!
Power Tools of the Mind!

If you want to be a Player in this Hi Tech World
You better learn math, you better get hip,
you better get down and wrap your mind around
SCIENCE!!
