From the truth down,
I'm the last clown
Oh please just like me
Oh, please.
Cause you're my lady
Come and take me
Oh please just save me
Oh, please.

And I'm not sure
If I should be here
I'm not on my own
If you could then you can prove that
You're proud and you're strong

From the ceilings
Into the windows
Oh I just can, man.
Oh I just can.
And then we take off
And then I flake 'em,
Oh I just can, man,
I just can.

And I'm not sure
If I should be here
I'm not on my own
If you could then you can prove that
You're proud and you're strong

And I'm not sure
If I should be here
I'm not on my own
If you could then you can prove that
You're proud and you're strong
