by: Izzy Stradlin' and Rick Richards

Try to think back

Time gone by

Not much come back

But one thing I

Do remember,

Remember words were said

*

Time fills the pages

Turn the page

Time will not stop

It will have its way on you

Received a letter

from overseas

It said if you come back

Would you like to see me

Then I recognized me

Time has changed my face

(*Repeat 2 times)

I saw my brother

Last week today

I said, "What's been goin'?"

He said, "Same old thing"

Do you remember

When time was all we had

Never count the hours

Didn't count the days

Never stopped to wonder,

What time would bring

Time would bring

Time would bring

Time would bring

Time would bring

Time would bring
