(S. Weber/M. Schumpelt/J.O. Soerup)  
Too many people living in a secret world  
time goes by so very slowly  
You heard every word that was spoken tonight  
You don't want to sit here  
You don't want to talk  
the candle's burning down like your conversation  
you just sit there, you don't want to talk  
too many people living in a secret world  
and time goes by so very slowly  
wake up, wake up, You can make it if you try  
wake up, stand up, You can cross the borderline  
try to get over and try to get on  
wake up, wake up it's time to rise  
and if days go by so very slowly, , It's time to rise  
It's time to rise, take away the tears you cry  
You better hear what I say, You can make it if you try
