Down Back Roads

Â© 2001 Kate Mesmer & D. A. Shea

Lately I've been driving down the back roads  
I'm never sure just what comes next  
Somehow it doesn't really matter  
Something better always lies ahead

There's no map to give any direction  
Every town's a place where I might stay  
Every turn is one more invitation  
Getting lost is how I find the way

Chorus:

Down back roads might take a little longer  
Down back roads to find my way back home  
I never really know just where the road will go  
So I just take it slow, down back roads

Fears are only shadows on a dark road  
Now that I know what they are  
So late at night, I turn off the headlights  
And navigate by moon and stars

Chorus

The stars we'll lead me where  
I need to go from there  
To find my way back home

Chorus
