Boy never fear  
I'll always be here for you  
Until my dying day  
Cuz now I know destiny has brought you to me  
And with you is where I'll stay  
When you need someone you can run to  
Call my name and I'll be there  
I wanna be the one you're with forever  
All our dreams we both can share  
I've been waiting for someone like you  
And there's no way I'll let you go  
I'll give my heart  
My loyal longs to you  
Cuz boy I love you more then you know

Just like the stars up in the sky  
This love I feel will never die  
I promise you this, I'll always be here by your side  
You gave me love, you changed my life  
Through good and the bad we will survive  
With faith in our live  
Cuz I'll always be here by your side  
You gave me love, you changed my life  
Through good and the bad we will survive  
With faith in our love  
Cuz I'll always be here by your side

There comes a time when someone touches your heart  
Like it's never been touched before  
And I believe you were sent to rescue my sadness and  
erase all the hard tears  
It feels so good when you hold me closely  
I feel so safe and warm  
There's nothing that we can't do together  
We can better any storm  
I've been waiting for someone like you  
And there's no way I'll let you go  
I'll give my heart  
My loyal longs to you  
Cuz boy I love you more then you know

Just like the stars up in the sky  
This love I feel will never die  
I promise you this, I'll always be here by your side  
You gave me love, you changed my life  
Through good and the bad we will survive  
With faith in our live  
Cuz I'll always be here by your side  
You gave me love, you changed my life  
Through good and the bad we will survive  
With faith in our love  
Cuz I'll always be here by your side
