

Tommy James "Ball And Chain"

Visit "[Ball And Chain](#)" on MotoLyrics.com

I went down to the valley, just to find out who I am,
Lord.

Down home in the valley, I've got to get myself back
together again, now.

I looked all around me, but everything was still the
same.

People, you can't climb that mountain carrying a ball
and chain, no.

Chorus

Because it takes all the love that your give to get to the
other side.

It makes all the life that you can live so satisfied, yeah,
so satisfied.

Come, come, comin' together, that's the only way we
can go.

Children, you better turn around, take a look where you
been before, now.

Come, come come on people, don't you know that
we're all the same;

You know we ain't gonna climb that mountain carrying
a ball and chain.

Repeat chorus
