Watch me move, watch me move
Boy I'm all that you need
Watch me move, watch me move
Don't take your eyes off of me
I'll shake this just for you

Got you close, hard to breathe
got your eyes all over me
Feeling my intensity
Baby just put your faith in me

Slip inside, lock the doors
Thought you'd seen it all before
Drop with me, hit the floor
can't wait no more

Watch me move, watch me move
Boy I'm all that you need
Watch me move, watch me move
Don't take your eyes off of me
I'll shake this just for you
Watch me, watch me move

You got to me, I wanna play
Let's make a scene, then slip away
Turn it up, hit the top
I'll Show you things to make your jaw drop

Feel the need, to free your soul
To give it up and lose control
Strap yourself in, baby you aint seen nothin'

Watch me move, watch me move
Boy I'm all that you need
Watch me move, watch me move
Don't take your eyes off of me
I'll shake this just for you
Watch me, watch me move

Watch me move, watch me move
Know how good it can be

Watch me move, watch me move
You just leave it all up to me
I'll shake this just for you
Watch me, watch me move

Don't take your eyes off me
Put your faith, put your faith in me

Don't take your eyes off me
Put your faith, put your faith in me

Watch me move, watch me move
Boy I'm all that you need
Watch me move, watch me move
Don't take your eyes off of me
I'll shake this just for you
What's your plan, what's your plan

Watch me move, watch me move
Know how good it can be
Watch me move, watch me move
You just leave it all up to me
I'll shake this just for you
What's your plan, what's your plan
