Nightflight to Venus

Way out there in space

Nightflight to Venus

Our new fav'rite place

Nightflight to Venus

All systems are go

Nightflight to Venus

The sky is aglow...

Ladies and Gentlemen, we've had a successful

take-off on this first Nightflight to Venus.

Our flying time will be 8 hours. We'll be travelling

at a speed of 2183 miles per second.

Captain - unidentified object at 8 o'clock - 2 million
miles away.

Stand by for emergency manoeuvre.

Object coming closer at the speed of light.

We have 8 more seconds.

Change course by 4 point 6 degrees.

Order admitteted.

Ladies and Gentlemen, in a few minutes we are going

to be landing on Venus, push the button on your left side,

the safety mechanism will do the rest for you.

We hope you enjoyed the world's first Nightflight to Venus,

have a good time there
