No time to lose

My man is coming in today

No time to lose

I know he must be on his way

No time to lose

I wanna look just right for him

No time to lose

Tonight will be the night for him

My man is big and strong

And not the shyest one

When he gets hold of me

We're having lots of fun

There's no denying

He sends me flying

He does so much for me

Yessirre

Yessirre

Got the touch for me

No time to lose

My man is here and free again

No time to lose

And so it's me and him again
No time to lose
I'm gonna do the dressing up
No time to lose
So he can do the messin' up
He won't be knocking
He'll come on rocking
Though he'll be reall' wild
He such a honey child
There's no denyin'
he sends me Flyin'
He does so much for me
Yessirre
Yessirre
Got the touch for me
No time to lose
I got myself a winner now
No time to lose
No longer he's a sinner now
No time to lose
There'll be some heavy lovin' soon
No time to lose
It's almost like a honeymoon
