People say that the odds are against you and
lightening won't strike
It's one in a million
Just like people told me that my dreams were all
fantasy, I wouldn't make it
I should them
They used to say my expectations were untrue, love
could never be real

Oh but you came along and prove them all wrong
Like a miracle come true

Just once in a lifetime
Once in my life
I find an angel just like you
Discover that it's true
It happens once in a lifetime
Once in my life
A love like yours will come my way
Believe me when I say
Just once in a lifetime
Once in my life

You'll never know just how lucky I feel when you come
into my life
You changed all my theories
Now I believe that anything can happen
Fairytale can come true
Just like a river that comes from the heaven
you fill my life with the love that you have shown
You answered the unknown

Like a miracle come true
just once in a lifetime

No one thought that we'll make the perfect pair

We found true love
I need your love
Never knew love
Would ever get this way

We found true love
I need your love
Never knew love
Would ever get this way

Just once in a lifetime
I find an angel just like you
It happens just once in a lifetime
A love like yours will come my way
Believe me when I say
It happens only once in a lifetime...
