### VERSE 1

Male: I picked a rose among these ancient walls  
A garden made for love  
but nothing grows at all  
I heard your laughter and I almost knew  
That we'd share our life together  
Female: And still surrounded by this fortress strong  
Kept from your loving arms too long

### CHORUS

Both: If we just close our eyes and begin a new day  
We could turn back the time to a world far away  
Where our hearts beat as one through the passing of  
ages  
Male: Oh, we could turn back time start a brand new  
day  
Female: If we just close our eyes

### VERSE 2

Male: I saw you walking with the sacred fire  
A girl her eyes so wild with anger and confusion  
The only spark of life to grace this land  
Both: We shared this hope eternal (Male whisper:  
eternal)  
Female: And now it seems as though you've found your  
place  
(Male: found your place)  
Lost my loving embrace

### CHORUS

### BRIDGE

Male: I'll give more than forever  
Female: Our love will carry us away  
Both: Together we'll fly if we just close our eyes

### CHORUS

repeat first 2 lines of chorus, with improvisation
