A beautiful night is not a beautiful night  
Another night without you  
I felt that way on a beautiful day  
So far away from you

I was walking sadly in Hyde Park  
And you were on my mind  
I said to myself if you were only here  
We'd have the best of time

I love London, you would too  
There's nothing in the world  
That can lift you up  
Like a London night can do

I love London, you would too  
There's something in the air  
That I'd love to share  
A London night with you

A special place in another world  
A place you'd want to be  
On a summer night or on any night  
A place you've got to see

On a London night at the stroke of midnight  
I could hear old Big Ben chime  
If only you could be here too  
We'd have the best of times

I love London, you would too  
There's nothing in the world  
That can lift you up  
Like a London night can do

I love London, you would too  
There's something in the air  
That I'd love to share  
A London night with you

I love London, you would too  
There's something in the air

That I'd love to share  
A London night with you
