(Written by Eric Carmen & Rachmaninoff)

No use pretending things could still be right  
There's really nothing more th say  
I'll get along without your kiss goodnight  
Just close the door and walk away

Chorus

Never gonna fall in love again  
I don't want to start with someone new  
'Cause I couldn't bear to see it end  
Just like me and you  
No, I never want to feel the pain  
Of remembering how it used to be  
Never gonna fall in love again  
Just like you and me

At first we thought that love was here to stay  
The summer made it seem so right  
But like the sun, we watched it fade away  
From morning into lonely night
