Verse 1:

I remember the day you said goodbye
Something was calling you
I could read it in your eyes
You told me that someday we'd meet again
But deep inside I always knew
This was the end

Pre-chorus:

I remember those words you claimed
As I stood in the pouring rain
When I showed my heart would never be the same

Chorus:

You told me time will always heal the pain
Bring the sun and dry the rain
You need time to solve and think our problems through
You told me time is always on my side
To turn the season, change the tide
Things work out with time if you want them to
Why can't time make me stop
Loving you

Verse 2:

It wasn't very easy when you left
Every mention of your name
Would get me so upset
I trapped my emotions deep inside
I acted like, I didn't care
With hope this word sub-side

Pre-chorus:

I remember those words you claimed
As I stood in the pouring rain
When I showed my heart would never be the same

Chorus:

You told me time will always heal the pain
Bring the sun and dry the rain
You need time to solve and think our problems through
You told me time is always on my side
To turn the season, change the tide

Things work out with time if you want them to
Why can't time make me stop

Bridge:

I try to get you off my mind
Oh I live my life just wasting time
Hoping that someday I can say the same

Pre-chorus:

Time will always heal the pain
Bring the sun and dry the rain
Things work out with time if you want them to

Chorus:

Time will always heal the pain
Bring the sun and dry the rain
You need time to solve and think our problems through
You told me time is always on my side
To turn the season, change the tide
Things work out with time if you want them to
Why can't time make me stop
Loving you
