Verse 1:

I never thought that I could be so much more  
You kept me fighting like a soldier in war  
And every part of you was worth falling for  
The rain is gone, and you're the rainbow

CHANNEL:

If I could jump off this cliff, I know that you are jumping  
with

CHORUS:

There's so much that you give when the world just  
won't do  
I found the best part of me through falling for you  
Every day I feel like I'm moving mountains  
Baby without you I'm drowning, drowning

Verse 2:

It's so easy to lose sight of the shore  
But it's so different when you know what you're living  
for  
There's no way that I can make it on my own  
Now that I've found the greatest love I've never known

BRIDGE:

Feels like I'm going in over my head  
And the water's too deep to pretend  
(Drowning - in that waterfall)  
Whether I sink or swim  
With me you're jumping in
