NO REGRETS

VERSE 1:

We set records
We broke boundaries
We made a dream, out of reality
We were unstoppable, and undefeated
Now it's over, I guess we did it

CHANNEL:

So long, goodbye
Don't make me cry
Moving on never felt so bad
I won't forget
And I'll never let you slip away

CHORUS:

No regrets
No regrets
How do you say farewell
Take a bow and leave with a smile
But now I'm feeling so love sick
Time has come and gone too quick
Our time was stolen, now I'm here heartbroken
For now

VERSE 2:

We had the love thing
We felt the butterflies, while we were saying
Our final goodbyes, oh
This moment is so bittersweet
You wanna stay but you have to leave
Today you're a part of me
But tomorrow it all will be just a memory

BRIDGE:

What I would do for one more day with you
But I wish you all the best, but only cause I have to
