[CHORUS] Represent Who Represent What Represent
Who Represent What Represent Africa with a
spectacular street vernacular Represent Who
Represent What [VERSE 1] Who woulda knew that this
cat from Africa Would come to America Verbally
massacre these characters Never no passenger I
cruise in the driver's seat Cadillacs, hoopties, Buicks,
still doing it Rap is like the ice-cream truck Kids pursuin'
it Media's confusin' it White boys consumin' it Me I pick
a spoon and Scoop a little soul in it Master P with the
flow, yo there's no limit No gimmick, stay on point like
Chauncey Billups These arrows from my Bowe like
Riddick The critics say I spit it so different Scorpio
intense Ghanaian presence definin' the essence
Ancestors blessed us beyond measure Deliver lyrical
treasure like AZ in the golden era Written, off the top,
on beat, or acappella Every line, every rhyme relevant
forever In the name of Mandela Masakela, Makeba Oral
traditions in a flavor you can savor We never gave up
True warriors, vainglorious It's obvious the gift is upon
us [CHORUS] Whatever happened to rappin' without
mentionin' a gun clappin' Or gun clappin' without
mentionin' in one's rappin' I never been to Uncle Tom's
Cabin But I've met many a Shaman that's proud to be
African From the womb to the tomb Were we destined
for doom, NO We do it big like a Sumo Beats by B-Live
make me feel alive I'm from a mixed tribe Coastally
inclined The ocean waves we ride Our fisherman got
Nets like New Jersey 12 year olds carry big breasts like
they 23 33 year olds got ass Europeans' envy Skin
ranges from jet black to chocolate ebony Hot damn
black Queen you heavenly! Still understand I'm only a
man Don't stand adjacent to my frustration Steady
telling me "Don't fuck with her, she Caucasian" With
all sincerity, you hate When I approach you with levity
Build a strong family Let's enjoy each other's company
Stop with the bickerin' and build some harmony These
bills need to be paid So when I open a new page To
script these lines Don't show your rage Like Cheney I'm
a dick sometimes But when the stars align I pen these
lines It's so divine News from the African Times

[CHORUS] This the 3rd You can eff what you heard in
the second and the first It gets worse It's so puzzlin' it
hurts worse Than standin' on pins and needles Or
catchin' the measles Learnin' like that cat from the
Beatles So damn Don Cheadle cuz my thoughts crash
Jumpin' around like everlast Ghana to Rwanda
Tanzania Uganda All the way to the horn Other places
war-torn [spoken interlude] [rhymes underneath] I
represent till my last breath is gone Baptize mics like
my name was John Even Cheech and Chong would get
high off this song For sure, I represent for the black
and poor The malnourished who aint never heard of
christian diour Stoaways that risk their lives to see new
york It's a deadly voyage, Danny Glover couldn't
fathom But still we hold rythmn hostage, demand
ransom And spazz out, throw trantrums in my new
habitat Minneapolis, guns go ratatatat I came in the
door With raw metaphors of course I'm down for the
law I'm down by cause Haha, That shit right [Represent
With a spectacular vernacular] I represent Africa
strictly CHORUS [SPOKEN INTERLUDE] CHORUS
