All you just tryin' to bring me down Let me come up I'm gonna come up I got a thing to tell you [VERSE 1] I been in many relationships Some never meant shit Some gave me joy like I just won a championship Some with shy women Some with some bad ass chicks Fuck your best friend while you're away make -you-mad-chick Maybe I'm shady or Gnarls Barkley crazy Or Charles Barkley frankly You don't thank me Speak my mind happily Some relationships die tragically and Logically we all related sorta biologically I call you my sister I never meant to diss ya But u buggin and naggin No more loving You keep pushin' me back like Def Jam did Joe Budden's album X marks the spot like Malcolm I wonder what will be the outcome If men got pregnant And felt PMS and all that mess Brenda's got a baby I heard she ain't been feelin' good lately Frustration But don't bring me down Kinda like ejaculation [laughs] [CHORUS] I can use that kinda loving But please don't bring me down I can use that kinda loving But please don't bring me down I can use that kinda loving But please baby girl don't bring me down [VERSE 2] I said two can play the game but only one can win Once said my e dash my next of kin And baby you can ask him if you like When it's that time of the night The freaks come out, but Freaks ain't really my type M.anifest craves for sophisticated Rare kinda women only Prince coulda dated And if you wasn't seethin' with hatred I'd shower you with compliments to make you confident all naked Don't [bring me down] Honey child I could make you feel elevated Like Christmas trees so decorated You remind me of New Year's Eve, you should be celebrated Kinda like a temple, girl, you sacred Never should be desecrated Deserve an Oscar, should be Grammy nominated Go shorty it's your birthday Happy belated Kinda like scotch on the rocks You my favorite But your attitude got me jaded And I hope you don't [bring me down] Cuz I'm gonna come up like a comedian I'm a stand-up kinda guy So why try to tell a lie Look me in the eye I reply Is it really real or am I just another guy Baby girl So for what's it worth Take me as I am As a man that can hurt and be hurt back You

scratch mine and I'll scratch your back No more
frustration Don't bring me down like ejaculation
CHORUS [Spoken interlude]
