Not even thirty seconds  
You're asking loads of questions  
You're killing the connection  
Oh oh oh, oh oh oh  
We're kissin' in the limo  
You pass over your demo  
You try to play me like Nintendo  
Oh oh oh, oh oh oh

Don't act like you don't know who I am  
You just mouthed it to your friend, no question

You only wanna f\*ck me cos I'm famous  
Get your friend to tape us  
Do you think that I'm that wasted, wasted  
You only wanna f\*ck me cos I'm famous  
Drop my name in Vegas  
Your ticket to the A-List, save it  
You only wanna f\*ck me cos I'm famous

I see you taking pictures  
Uploading them to Twitter  
I'm zipping up your zipper  
Oh oh oh, oh oh oh  
You could've been a keeper  
If you weren't such a creeper  
Go look for Justin Bieber  
Oh oh oh, oh oh oh

Don't act like you don't know who I am  
You just mouthed it to your friend, no question

You only wanna f\*ck me cos I'm famous  
Get your friend to tape us  
Do you think that I'm that wasted, wasted  
You only wanna f\*ck me cos I'm famous  
Drop my name in Vegas  
Your ticket to the A-List, save it  
You only wanna f\*ck me cos I'm famous

One more strike, waste of time

I can't get this right  
Hard to know if they really like  
Me or the money

I don't care about the fame  
Cos I'd give it up just for one night  
With somebody who really wants me

You only wanna f\*ck me cos I'm famous  
Get your friend to tape us  
Do you think that I'm that wasted, wasted  
You only wanna f\*ck me cos I'm famous  
Drop my name in Vegas  
Your ticket to the A-List, save it

You only wanna f\*ck me cos I'm famous  
Get your friend to tape us  
Do you think that I'm that wasted, wasted  
You only wanna f\*ck me cos I'm famous  
Drop my name in Vegas  
Your ticket to the A-List, save it  
You only wanna f\*ck me cos I'm famous
