Yeah I know I said goodbye but I wanted to say hello  
uhh  
Tried to act cool and play a part that I couldn't pull off  
no

well these things happen when you look at someone  
and he gets too precious to you (2X)

this must be love again  
ohh  
I feel much better than I have in a long long time

yeah I know we're getting closer to reaching some kind  
of a bliss  
uh  
No I like the things you say to me but they don't make  
much sense  
oh no

well these things happen when you look at someone  
and he gets too precious to you (2X)

this must be love again  
oh  
I feel much better than I have in a long long time (2X)

woohoo

this must be love again  
I feel much better than I have in a long long time

this must be love again  
oh  
I feel much better than I have in a long long time (3X)
