Now what do you wana do
Ah, yea come on, Another Level

Why you wana come around and step upon my scene
You tried to playa hate, but you aint gon' play me
What you looking for
Something to floor
The talent that you see
Get a hold of yourself
Find something else
Stop tryna be me

Why would you think you could walk in my shoes
You can take inspiration but don't break the rules

Now let me make this real clear
I don't know what you could want from me
I'm asking you just let me be
There's nothing left to see here
Can't you see there's something wrong
I'm telling you to move along

Everybody's talking like they best friends with me
Just because they see me on the DVD
On the radio
I'm good to go
When I'm home alone
Like to take it slow
Sit back relax
Let my interests grown
That's just the way I flow

Why would you think you could walk in my shoes
You can take inspiration but don't break the rules

Now let me make this real clear
I don't know what you could want from me
I'm asking you just let me be
There's nothing left to see here
Can't you see there's something wrong
I'm telling you to move along

I'm just an ordinary guy
With tendencies to be shy
Why you think I'm so cool
Don't you think, that I could be
Just like you
I'm just me

Now let me make this real clear
I don't know what you could want from me
I'm asking you just let me be
There's nothing left to see here
Can't you see there's something wrong
I'm telling you to move along

Sitting in the club
I know you know my name
You step to me
Like I'm the one to blame
You don't know
I'm just the same
As you and him, and his friend and his woman (o yeah)

Now let me make this real clear
I don't know what you could want from me
I'm asking you just let me be
There's nothing left to see here
Can't you see there's something wrong
I'm telling you to move along
