"The Sound Of Breaking Up"

Visit "[The Sound Of Breaking Up](#)" on MotoLyrics.com

I close my eyes (this is the sound)
I voice my fears (this is the sound of breaking up)
I close my heart (this is the sound)
So open your ears (this is the sound of breaking up)

Just came to say i'm leaving
Coz you were never gonna get that much deeper
I didn't want to stop believing
I wanna be your lover not your keeper
But i... i really loved you so
But you can't step back
See it fads to black
This is what you need to know...

I close my eyes
I see what you have done
I voice my fears
That i'm not the only one
I close my heart
Coz once broken is enough
So open your ears
This is the sound of breaking up

I close my eyes
I see what you have done
I voice my fears
That i am not the only one
I close my heart
Coz once broken is enough
So open your ears
This is the sound of breaking up

Turn off my phone stop calling
I didn't say that this was gonna be easy
When you got nothing its tempting to fall right back
And i know that you know how to please me

But i... i really loved you so
But you can't step back
See it fads to black
And this is what you need to know...

I close my eyes
I see what you have done
I voice my fears
That i'm not the only one
I close my heart
Coz once broken is enough
So open your ears
This is the sound of breaking up

I close my eyes
I see what you have done
I voice my fears
That i'm not the only one
I close my heart
Coz once broken is enough
So open your ears
This is the sound of breaking up

I close my eyes
Just take your things and go
I voice my fears
I tired of making up
I close my heart
Just leave your keys and go
So open your ears
This is the sound of breaking up

I close my eyes
Just take your things and go
I voice my fears
I tired of making up
I close my heart
Just leave your keys and go
So open your ears
This is the sound of breaking up
