[Jay-Z]

At times you could find me in the city sinnin'
or in a studio touchin' the track up like pretty women
Spittin' venom with the snake skins &
apply the pressure to you & ya mens &
damage I do career endin'
Y'all know what I'm representin' funds
extra low got a one on a tent next to dough
Y'all best to know I'm not alone My,
music menage trois with Shai & I ha haa

[Shai]

Girl it's been been so long girl without you (say what)
& I swear I hate livin' without you (uhh huh)
with some peace of mind I've been confined without
you
tomorrow won't come
if I spend the night without you (uhh uhh uhh check it)
Every one for this love thang I'm feelin'
& I can't fight this urge that I'm feelin' (uhh huh)
Baby can't ya see it's destiny I'm feelin'
spend the night let me show you what I'm feelin' (Come
on)

Chorus

I don't want to be alone tonight
Why don't you stay with me?
When girl you said you'd never go
My baby don't you leave me

[Jay-Z]

I'm on top of my game act like ya know
think I didn't see the lame sneakin' in the back doorn
(ha haa)

It's aight he can come here for real
you aight but I'm done here
I don't keep my ones here
It's unlikely that you see Waiki'
but if you slip up and hit up
we could split up
Playa hata not at all
I don't play those games
You got beef with Jigga?
Say my name, you shy?

[Shai]

Lately I seem to think I need someone
of my own just to hold me is there someone
who will stay with me forever be that someone (remix)
Always there thick & thin you're that someone (uhh uhh

Oh baby stay
so baby won't you stay with me tonight
We can reach ecstasy
Girl we can both reach ecstasy all night

Chorus

[Jay-Z]

Let's get this show on the road
Cristal on the right I got the
Big Apple & it's smashed like cider
Rocka-fella & Shai money
tryin' to see Guy money
they want a piece of ya love
I want at least a dub
mail cakes bills straight what
have we here Cartier ill faced
on the highway accompanied by a friend
First the Range then the Lex'
then the buggy-eyed Benz Ahaa

I don't want to be alone (tonight)
