After all,
You've said and done
The pain you've caused me
And although
You'd never run
You strain my heart strings
I've given all of me
I've given everything
Paid so dearly
Now to stay sane
I have to stay away

When I pulled back instead of trying to shy away
Like you used to, when everything was A. Okay
You kick and scream and you fight like you mean it
And hang on so tight..

(Chorus)
I'm spinning my wheels
I know your hot on my heels
I feel your breath down my neck
No matter how hard I try
I try to pull ahead yeah
Try to get away from you
But fait won't leave you behind
Won't leave you behind

When I'm around
When were in love
I tread so lightly
And I know
Your thinking of such painful endings

And I tried so hard to make you happy
And let you know id always be your baby
But this last assault on our love has put me off

I'm spinning my wheels
I know your hot on my heels
I feel your breath down my neck
No matter how hard I try

I try to pull ahead yeah
Try to get away from you
But fait won't leave you
I'm spinning my wheels
I know your hot on my heels
I feel your breath down my neck
No matter how hard I try
I try to pull ahead yeah
Try to get away from you
But fait won't leave you..

I'll fight for you
Ill fight for this
Ill stop the cycle but you gotta promise
You'll figure it out
And unlock your heart
You'll knock it all down yeah and now we can restart
I don't ever wanna say again that!

I'm spinning my wheels
I know your hot on my heels
I feel your breath down my neck
No matter how hard I try
I try to pull ahead yeah
Try to get away from you
But fait won't leave you
I'm spinning my wheels
I feel your breath down my neck
No matter how hard I try
I try to pull ahead yeah
Try to get away from you
But fait won't leave you behindâ€™.
Won't leave you behind
