"'til We Get There"

All the stars unite in one brilliant light,
When you are here with me,
And all our dreams are in our reach,
Everytime we touch,
Together we believe...

I won't let go,
You're all I know,
Im holding strong,
'Til we get there,
I won't let go,
Its impossible,
To break this faith,
I won't look back,
Down this one way track,
It's a lonely road,
'Til we get there,
Until then,
This dream won't end.

We've been waiting,
For this chance to come our way,
Now it's here for us to take,
But we are strong enough,
To never walk away,
For a dream we can forsake...

I won't let go,
You're all I know,
Im holding strong,
'Til we get there,
I won't let go,
Its impossible,
To break this faith,
I won't look back,
Down this one way track,
It's a lonely road,
'Til we get there,
Until then,
This dream won't end.

There are times that we may stumble,
There are times that we may fall,
But we'll stay together,
Through it all...

I won't let go,
You're all I know,
Im holding strong,
'Til we get there,
I won't let go,
Its impossible,
To break this faith,
I won't look back,
Down this one way track,
It's a lonely road,
'Til we get there,
Until then,
This dream won't end.

I won't let go...

All the stars unite in one brilliant light,
When you are here with me...
