And the air was alive  
With piercing sound  
And burning skies  
The horror did me good

The magic was on my side  
And hot and cold ideas  
Were running onto your eyes  
Your sinking gray eyes

She shook his head  
Like so much meat  
The horror did me good  
Time to exercise

Like ice about to melt  
You empty yourself of everything  
It's cold and gray again  
Your body begins to fall

The color blinds your eyes  
The flavor dulls your taste of anything  
You try to break out  
But some thing's just locked the door

You'll get blue eyes  
If you stand too close to him  
And la la la, la, la  
You die inside your dream

I love you like you  
Love me not  
I love you like you  
love me not

I love you like you  
Love me not  
I love you like you  
love me not

I love you like you  
Love me not

I love you like you  
love me not
